

MOVEMBER®

**1 IN 8  
MEN**

in the UK will be  
diagnosed with  
prostate cancer  
in their lifetime

# EARLY DETECTION

**98% CHANCE OF SURVIVAL  
BEYOND 5 YEARS**

# LATE DETECTION

**26% CHANCE OF SURVIVAL  
BEYOND 5 YEARS**

Early detection is key. To give yourself every chance against prostate cancer, talk to your doctor **AT 50, OR AT 45** if you're of African or Caribbean descent, or if you have a family history of the disease.
